

97.006 | Self-Adhesive Alcantara

TOTAL TOOLS | Application

ABOUT

Our Self-Adhesive Alcantara has been specially designed to cover the edge and corners of your squeegee. The Alcantara will give less friction than the standard felt (97.005) and is indispensable when doing intensive jobs such as car wrapping.

97.006 | Self-Adhesive Alcantara has been pre-cut in a wing design which allows easy fitting on the standard size squeegees (10 cm / 4"). Simply wrap the Self-Adhesive Alcantara around the corners of the squeegee and it is ready for use.

We also have the Self-Adhesive Alcantara available in roll size (3cm x 1m) to fit squeegees of any size.

Also available:

97.007 | Self-Adhesive Alcantara Rolls
