

97.40X | Knifeless

TOTAL TOOLS | Cut & Seal

ABOUT

Knifeless has been designed to protect the substrate from blade damage. This tape smoothly cuts vinyl wrap films and has a patented design which turns and stretches easily in any direction to follow contours & curves. Knifeless can be used for single or multiple vinyl layer applications.

We offer two types of knifeless:

97.400 | Finish Line: the standard product for finishing vehicle graphic installations without a blade.

97.401 | Design Line: engineered to easily create highly contoured designs and leave a sharp, clean edge. Best option for very tight curves.

FEATURES

- ✓ NO BLADE DAMAGE
- ✓ VERY EASY & FAST
- ✓ TURNS IN ANY DIRECTION
- ✓ SINGLE OR MULTIPLE LAYERS
