

## 40.100N | StrongTack

TOTAL MARK | High Tack Permanent

### ABOUT

StrongTack is a printable white gloss monomeric PVC film with a High Tack Permanent adhesive system. This product offers excellent properties designed to meet the marking requirements for hard to adhere and low energy surfaces such as PE and PP.

StrongTack has been specifically engineered to be used together with our Extreme Guard Lamination Films. Once combined, it offers a perfect solution for creating durable labels, stickers and graphics used extensively for applications that are exposed to rough handling conditions.

#### Typical applications:

Motocross bikes, snow & water scooters, quads, buggy cars, helmets, short term industrial applications, permanent indoor wall graphics, ...
