Available in:

Satin White 51.100N-3

Canary Yellow 50.301N-3

Traffic Yellow 51.300N-3

Satin Silver 51.900-3

ABOUT

ForceTack series is a superior quality polymeric film available in a selection of colours, formulated to give exceptional dimensional stability and durability. These self-adhesive films are the ideal choice for long-term industrial applications in either interior or exterior environments. Thanks to the 100 micron thickness and composition of the film, this product provides excellent opacity levels and can withstand tough weather conditions. This product carries a high tack permanent adhesive system designed to meet the marking requirements for hard to adhere and low energy surfaces.

Typical applications:

Fleet marking, construction & farm equipment, container marking, marine and public transportation, escalators, motocross bikes, ...

FEATURES

- ✓ HIGH OPACITY
- ✓ STICKS TO HARD TO ADHERE SURFACES
