

A NEKOOSA BRAND

GXP-1000

Technical Data

Product Description – A high tack paper application tape for vinyl graphics used in sign making and surface protection. The product consists of a self-wound, standard grade saturated backing coated with a specially formulated latex pressure sensitive adhesive.

Product Characteristics

Construction		
Backing		White translucent latex saturated paper
Adhesive		Water based natural latex
Total Thickness		5 mil (nominal)
Performance		
Tensile Strength (psi)		
MD	20	
Elongation (%)	11	
Average Adhesion (oz/in)		
180° Peel		
PSTC stainless steel	13.0 – 17.0	

The physical properties listed above are typical values and are not to be considered as specifications. Our suggestions for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for their internal use. Nekoosa assumes no liability for claims beyond those outlined within our Limited Warranty, which includes replacement value of Nekoosa product proven defective. For full disclosure of the Limited Liability Warranty, please contact your Nekoosa representative.

Typical Uses - Excellent adhesion for transfer and installation, yet releases easily after use. Laminates smoothly to UV inks and clear coated 4-color process graphics. Resists tunneling and edge curling. Excellent for very small, plotter and die-cut lettering and graphics.
