ROLLOVER

THE ART OF LAMINATING

"The Rollover is the perfect 3rd or 4th worker you can add to your workforce in any sign shop. We still love ours!
We call it 'Darth', it is the best thing we have ever bought and I can't believe I didn't invent them myself.

~ *Deb Top End Sign Sales, Darwin NT, Australia.*

"You cannot run a Sign Shop without a Rollover, anyone thinking of buying one should just buy one !, - it is an Incredible Piece of Kit

~ *Ray McCarthy, Extrabrite Signs, Dublin*

"We can now apply all our graphics and premask without bubbles or creases within seconds

~ *Andrew Mc Cabe, AMC Branding, Dublin.*

ROLLOVER

THE ART OF LAMINATING

The innovative and trendsetting Rollover Flatbed Applicator simply offers a better way of solving the daily challenges of the sign making industry. The excellent functionality is powered by the idea of facilitating and streamlining the multiple tasks encountered in the daily work of signmakers. Regardless of media type such as self-adhesive vinyl applications, road signs, glass application, banners etc. up to 90mm in thickness, the Rollover will ensure a perfect result at a minimum of time.

Optimal ergonomic work positions have been the basis for the design. Being able to comfortably operate the applicator with one hand whilst having free access to roller, media and tabletop, results in smooth and efficient handling. We can guarantee that the operator will not miss the climbing and knee-bending… Perfectly flat applications without bubbles or creases is obtained in a minimum of time, and waste is minimised. Illuminated glass table top and special cutting mat will improve accuracy and control in operation, and also make the Rollover a perfect work place for many other tasks of the trade.

The Rollover is extremely user-friendly, and the operator can learn how to use it in less than one hour thanks to the detailed Manual supplied on delivery. Flexible extra media-holders and side trays facilitate numerous applications and handling of oversize media. There are many Optional Features/Accessories available which further enhances the Rollovers as versatile work stations. The gap between roller and tabletop accomodates different substrates up to 90mm thickness.

SELF-HEALING CUTTING MAT
Transparent 5mm PVC (Phtalate-free) cutting mat. Improves accuracy when cutting and control in operation.

ROUNDED HOUSINGS
No sharp edges and protected activation switch provide superb and unobstructed access to the work surface.

EASY ONE-HAND OPERATION
By using the ergonomically shaped and inward-facing handles, the roller can be moved easily over the tabletop both in a raised and lowered position.

ILLUMINATED (LED) GLASS BED
The work surface can be back lit to improve accuracy in operation, cutting etc.

HANDY TOOL POCKETS
Store your tools in these conveniently placed pockets on each housing.

LARGE SIDE TRAYS
For storage and handling of oversize media across the table top.
SPINDLE & BRACKET HOLDERS
Easy storage when not in use.

CASTORS
To enable easy relocation and transport of the machine.

ATTACHMENT POINTS
For brackets & spindles holding media and application tape. Also found at the roller housings.

AREAS **OF USE**

RIGID PANEL APPLICATION / LAMINATING DIGITAL PRINTS

Applying digital prints and other self-adhesive applications on rigid panels e.g. correx, foames, dibond, aluminium etc., is just one of the areas where the Rollover reveals its excellent properties in result and operation. Substrates up to 90mm thick can be handled for perfectly flat applications without bubbles or creases.

The great flexibility of the rollover application system is already evident in conventional laminating in which digital prints may be coated with protective laminates. Especially when using formats covering the full working area of the Rollover, these jobs can be done quickly and without bubbles or creases.

APPLICATION/ TRANSFERTAPE

Executing frequently occuring tasks like the use of application tape, is easily transformed into a «One man- or one woman show». By using the extra media holders, the full width of the table top can be utilised. Besides the perfect result, great savings in time and cost are obtained by using the Rollover Applicator.
ASSEMBLY OF OVERSIZE MEDIA

By using the generously spaced side shelves, wide banners or other oversize media can be handled across the tabletop. This allows e.g. multi-line vinyl labels and digital prints to be transferred to large formats.

THE ROLLOVER AS WORK STATION

Last but not least, when cutting on the self-healing cutting mat or even working with flexible skins and hoardings, Rollover offers with its back-lit work area the best basis to cope with an advertising technicians everyday strive.

ROLLOVER

FLEXI

Rollover Flexi is the latest, flexible addition to the Rollover range. Comprising all the essential qualities of the existing line of Flatbed Applicators, this unit also offers quick dismantling to facilitate entering of premises having difficult access.

The Rollover Flexi represents our well known high level of quality, craftmanship and durability. Having no overhead gantry above the roller, the access to media and substrates while working is superior.

The Flexi Model arrives fully assembled, but is constructed for convenient & quick dismantling in 3 main sections:

• The sliding arms/roller gantry
• The glass bed and supporting frame
• The leg sections

These elements can be individually transported into premises having difficult access. This is done either manually or by using the specially developed transport tool.
ACCESSORIES

We have developed a number of accessories to make the daily use of your Rollover even easier and more efficient.
SELF-HEALING CUTTING MAT FOR REPLACEMENT
✓ Available in any model size as well as customized
✓ Non-phthalate – contains no harmful substances
✓ Improves accuracy when cutting and control in operation

ROLLOVER ROLL CRADLE 25CM/9,8" AND 60CM/23,6"
✓ Designed to carry and feed from media rolls
✓ Flat base for stable placing on the table top
✓ Comes in 2 lengths and in combination fits any roll size

ROLLOVER AIR GUN W/SPIRAL HOSE
✓ Blows away debris and dirt from the work surface
✓ Quickly connected to the integrated air outlet
✓ Comes with 6m spiral hose

ROLLOVER SILENT COMPRESSOR
✓ 9L tank
✓ 53dB
✓ Oil free
✓ Max. 8 bar
✓ Weight 18kg

ROLLOVER LONG REACH CUTTER
✓ This extremely practical tool allows you to cut media across the table without having to lean or crawl. Retractable rod from 75cm to 130cm of length
✓ Spare blades 10pcs/pack

CORE ADAPTORS
✓ Makes it quick & easy to attach media rolls to the spindle on your Rollover
✓ Fits standard inside core diameter of 75mm
✓ Comes in sets of 2 pieces

CONTACT CLEANER
✓ Cleans any flat surface
✓ Ergonomic design of the handle
✓ Crafted from solid and durable aluminum
✓ Extendable shaft included
✓ Starter Pack includes paper that cleans and refreshes the roller before next application

ANTISTATIC EQUIPMENT
✓ Rugged design
✓ Ideal for use in industrial applications
✓ Ionising air guns neutralise static charges on several materials and clean the surface using ionised compressed air
ADDITIONAL MEDIA HOLDER
✓ Facilitates media handling
✓ Fits both table ends as well as the roller housings.

**SPINDLE & BRACKET HOLDERS**
✓ Easy storage when not in use

LONGSIDE CUTTER GUIDE
✓ Makes straight cutting of media and substrates much easier'

VINYL REMOVER VR15 SUPPORT SHELF
✓ Specially developed Bracket allows easy mounting of the Vinyl Remover VR15 to any Rollover Model

KEENCUT EVO3 SUPPORT SHELF
✓ The ultimate tool for a busy production environment
✓ Quick and easy to use - saves time and money
✓ Cuts PVC foamboard up to 13mm
✓ Can be attached to any Rollover Model with the specially developed Support Shelves

ROLLOVER STORAGE TROLLEY
✓ Integrated storage trolley for media rolls, panels and tools underneath the table
✓ Fitted with casters to provide easy access

OPTIONAL FEATURES

**HEIGHT ADJUSTABLE LEGS**
✓ Electrically driven 80cm/31,5"–110cm/43,3'

HEAT ASSISTED ROLLER
✓ 30'C/86'F – 65'C/149'F

EXTENDED GAP
✓ Extended gap between roller and glass bed
